

EDGE D100

INCREDIBLE PERFORMANCE, UNBELIEVABLE PORTABILITY

Edge by NextComputing is a unique, high performance computer line for content creation, VR, and CAD developers and much more.

The Edge D100 features high-end workstation performance in an impossibly small package that easily fits into the most limited work spaces. The integrated 17.3" LCD means no additional display to transport and setup.

Edge D100 meets the performance demands of 10K video production and editing, 3D animation, 3D modeling, live streaming, 360 live stitching, engineering, simulation and data visualization, while still maintaining the benefits of portability.

THE CREATIVE EDGE

- Compact portable system with integrated display and desktop-workstation performance
- Sleek, mobile design for making an impression at demos, tradeshow, and while travelling

HIGH PERFORMANCE

- Intel Xeon, Intel Core, AMD Ryzen, or AMD EPYC
- Available with full size professional GPUs
- Range of internal storage options including PCI Express card based SSDs and SATA based SSDs for increased I/O performance

Display	Integrated 17.3" (439.42 mm) LED LCD (1920×1080) with scratch-resistant glass
