

IMPOSSIBLY SMALL WORKSTATION FOR CREATIVE PROFESSIONALS

Edge by NextComputing is a unique, high performance computer line for content creation, VR, and CAD professionals.

The Edge T100 packs a powerful creative workstation into a briefcase-size system designed for demanding professional applications. It delivers maximum throughput performance by incorporating workstation-class components like high-end graphics cards and massive storage.

It features powerful processors from Intel with high CPU core count for 3D rendering of images and animations, encoding videos, and Elastic/Kibana data visualization use cases and fast CPU clock speeds for 3D modeling use cases.

Edge systems are designed for the most discriminating creative professionals, wrapped up in a sleek and impossibly small package so your creative tools stand out as much as your designs.

THE CREATIVE EDGE

- Compact portable system with desktop workstation performance
- Sleek, mobile design for making an impression at demos, tradeshow, and while travelling

HIGH PERFORMANCE

- Intel Xeon or Intel Core processors
- Available with full size professional GPUs
- Range of internal storage options including PCI Express card based SSDs and SATA based SSDs for increased I/O performance

Available CPUs	<p>The following processors utilize silent liquid cooling:</p> <ul style="list-style-type: none"> • Single Intel® Core™ X series processor • Single Intel® Core™ processor • Single Intel® Xeon series processor <p>The following processors utilize air cooling:</p> <ul style="list-style-type: none"> • Single Intel Xeon Gold or Platinum processor from 8-cores (16 threads) to 24 Cores (48 threads) per processor
Memory	<ul style="list-style-type: none"> • With Intel Core X Series and Core i9: Up to 128GB • With Intel Core i7: Up to 64GB • With Intel Xeon series: Up to 512GB
Motherboards	<ul style="list-style-type: none"> • Intel X299 (ATX) • Intel Z370 (ATX) • Intel C422 (CEB)
PCI Expansion	<ul style="list-style-type: none"> • Up to (5) full-length PCI Express 3.0 slots • Intel Xeon-based motherboards only: Up to (7) PCI Express 3.0 slots
GPUs	<ul style="list-style-type: none"> • Single-width or dual-width PNY NVIDIA GeForce or Quadro GPU card options available • Multi GPU card configuration options available
Storage	<ul style="list-style-type: none"> • (1) M.2 PCIe Gen3 NVMe OS/application SSD for fast boot and load, up to 7.68TB • Upgrade Options (Motherboard dependent. Ask a NextComputing Sales Engineer): <ul style="list-style-type: none"> » Up to (2) additional M.2 SSDs up to 7.68TB each » Up to (2) no-tools removable 2.5" 9.5mm SSDs up to 7.68TB each -or- up to (2) fixed 2.5" Solid State Drives up to 7.68TB each » With optional 680W PSU: Up to (3) fixed 3.5" SATA/SAS hard drives, up to 16TB each (restricts PCI Express cards to half length only)
RAID	Options for onboard SATA RAID 0/1/5/10, or via add-on PCIe RAID controller. Ask a NextComputing Sales Engineer.
Operating Systems	<ul style="list-style-type: none"> • Windows 10 64 Bit Pro • Additional OSs available: Windows Server, CentOS, Red Hat and other Linux distributions, VMWare vSphere
Power	<ul style="list-style-type: none"> • 650W SFX 80 PLUS Gold certified fully modular power supply; 90- 264V, 47-63Hz auto-switching <p>Additional upgrades available:</p> <ul style="list-style-type: none"> • 800W SFX 110/220V, 50/60Hz auto-switching 80 PLUS rated power supply PSU – Cards in PCI Express slots are limited to 9" in length • 680W 1U 110/220V, 50/60Hz auto-switching 80 PLUS rated power supply PSU – required for upgrade to 3.5" drives, which restricts PCI Express cards to half length only
Physical	6.67" (169.41mm) D x 16.75" (425.45mm) W x 13.69" (347.73mm) H
Carrying Cases	<ul style="list-style-type: none"> • Includes soft carrying case • Optional hardened cases and rolling transit cases available
Warranty	3 years parts and labor
